EDITION 2023

CAT

Mikko va néixer a Barcelona l'any 1982.

Nascut en una família treballadora, el seu pare, un conegut pintor d'art pop, li va inculcar la passió per l'art i el dibuix de ben petit. Les llargues hores veient el seu pare pintar a l'estudi dia rere dia, any rere any, marcarien la seva infància per sempre.

Encara que considerat un artista emergent emergent, abans de començar a pintar va treballar més de 15 anys en enginyeria de producte, noves solucions conceptuals i departaments tècnics en una àmplia gamma d'indústries.

Va començar a pintar l'any 1999 i com la majoria d'artistes de carrer, Mikko es manté encobert i anònim tant com és possible.

Va tenir l'oportunitat de treballar en activitats industrials molt diferents, que li han donat l'oportunitat de créixer, coneixent noves tendències artístiques i fent créixer les seves habilitats com a artista.

Li encanta que el seu art es mostri com els materials i les tècniques utilitzades al carrer. Ha estat influenciat per les obres d'Andy Warhol, Banksy, Roy Lichtenstein, Keith Haring i molts altres.

Les seves obres d'art estan embellides amb gargots, escrits, màscares, purpurina, pintura en aerosol, pintura acrílica i retoladors per fer-ho molt únic.

ESP

Mikko nació en Barcelona en 1982.

Nacido en una familia trabajadora, su padre, un conocido pintor de arte pop, le inculcó desde muy joven la pasión por el arte y el dibujo. Largas horas viendo a su padre pintar en el estudio día tras día, año tras año, marcarían su infancia para siempre.

Aunque considerado un artista callejero emergente, antes de empezar a pintar trabajó más de 15 años en ingeniería de producto, nuevas soluciones conceptuales y departamentos técnicos en una amplia gama de industrias.

Comenzó a pintar en 1999 y, como la mayoría de los artistas callejeros, Mikko se mantiene oculto y anónimo tanto como sea posible.

Tuvo la oportunidad de trabajar en muy diferentes actividades industriales, lo que le ha dado la oportunidad de crecer, conocer nuevas tendencias del arte y desarrollar sus habilidades como artista.

Le encanta que su arte se muestre como los materiales y técnicas que utiliza en las calles. Ha sido influenciado por las obras de Andy Warhol, Banksy, Roy Lichtenstein, Keith Haring y muchos otros.

Sus obras de arte están adornadas con garabatos, escritos, máscaras, brillos, pintura en aerosol, pintura acrílica y rotuladores, lo que las hace únicas.

ENG

Mikko was born in Barcelona in 1982.

Born into a working family, his father, a well-known pop-art painter, instilled in him a passion for art and drawing at a very young age. Long hours watching his father paint in the studio day after day, year after year, would mark his childhood forever.

Although considered an emergent street artist, before starting painting he worked more than 15 years on product engineering, new conceptual solutions and technical departments in a wide range of industries.

He started painting in 1999 and like most street artists, Mikko stays undercover and anonymous as much as possible.

He had the opportunity to work in very different industrial activities, which have given him the opportunity to grow, knowing new art tendencies and growing his skills as an artist.

He loves his art to be shown like the materials and techniques used from the streets. He has been influenced by the works of Andy Warhol, Banksy, Roy Lichtenstein, Keith Haring and many others.

His artworks are embellished with doodles, writings, masks, glitters, spray paint, acrylic paint and pen markers making it very unique.

Mikko est né à Barcelone en 1982.

Issu d'une famille ouvrière, son père, peintre pop-art reconnu, lui inculque très jeune la passion de l'art et du dessin. De longues heures à regarder son père peindre dans l'atelier jour après jour, année après année, marqueront à jamais son enfance.

Bien que considéré comme un artiste de rue émergent, avant de commencer à peindre, il a travaillé plus de 15 ans sur l'ingénierie de produits, de nouvelles solutions conceptuelles et des départements techniques dans un large éventail d'industries.

Il a commencé à peindre en 1999 et comme la plupart des artistes de rue, Mikko reste infiltré et anonyme autant que possible.

Il a eu l'opportunité de travailler dans des activités industrielles très différentes, ce qui lui a permis de grandir, de connaître de nouvelles tendances artistiques et de développer ses compétences en tant qu'artiste.

Il aime que son art soit montré comme les matériaux et les techniques utilisés dans la rue. Il a été influencé par les œuvres d'Andy Warhol, Banksy, Roy Lichtenstein, Keith Haring et bien d'autres.

Ses œuvres sont agrémentées de griffonnages, d'écritures, de masques, de paillettes, de peinture en aérosol, de peinture acrylique et de marqueurs, ce qui la rend très unique.
